SUBJECT: Pipeline addition requiring legal description change and updated map;
Lisbon Valley Mining Co, LLC; Lisbon Valley Copper Project,
M/037/088, San Juan County, Utah

On June 20, 2005, Lisbon Valley Mining Co, LLC received approval for adding pipeline to three "down valley" production wells. This area is outside the current legal description that is defined in the reclamation contract. As a result, the area defined as: portions of Section 6, Township 31 South, Range 26 East has been added to Attachment 'A' of the reclamation contract. In addition a map identifying this area has been submitted and is identified as Attachment 'C1'.

No bond amount increase is required since they are still within the allowable 345.79 acres of disturbance for 2005. It has been confirmed that the signatory to the contract, Gregory A. Hahn, is a Manager of Summo USA Corporation, Manager of Lisbon Valley Mining Company, LLC as defined under the company's articles of organization.
